

## POLYMER ADDITIVE

**P14**

Polymer Additive

### Description:

PAVIKRETE ADDITIVE is a milky white emulsion suitable for cement based grouts. It finds its application under both dry and wet conditions in interiors and exterior locations.

### Features & Benefits:

- Excellent work ability.
- Easy to use and apply.
- Provides superior mechanical strength to tile edges.
- Provides increased abrasion resistance.
- Increased flexural strength and flexibility.
- Provides superior compressive strength.
- Provides superior freeze of thaw resistance.
- Reduce porosity of the grout, thereby provides greater protection against water permeability and hence reducing the risk of efflorescence.

### Area of Application :

- Commercial & Residential Kitchen.
- Restaurants.
- Shopping Malls.
- Bathrooms.
- Service Garages.
- Interior & Exterior
- Dry & Wet Areas
- Limited Vibration
- Showers
- Swimming Pools

### Pack Size:

250 ml, 1 litre and 5 litre.

### Shelf Life:

12 months if kept in original packing under shed.
